Madison State Hospital COVID-19 Visitation Guidelines

Effective July 20, 2020

Madison State Hospital understands that visitors play an important role in an individual's recovery and, to help ensure a safe environment for interactions to occur between patients, visitors and staff, Madison State Hospital is instituting the visitation guidelines listed below. These guidelines are subject to change depending on the current Indiana Back on Track Stage and statewide mandates, as well as Ripley County Health Department guidance. In the event of a COVID-19 outbreak, a moratorium will be immediately enacted at the hospital.

If you have questions about visiting a patient at Madison State Hospital, please contact your loved one's unit social service specialist.

Visitation guidelines as of July 20, 2020:

- All visitors **MUST** wear a mask during the visit, which will be supplied by Madison State Hospital.
- All visitors must sign in and provide information for contract tracing in the event of a COVID positive case.
- Temperature and pre-screening will be conducted on all visitors
- Visits will be limited to two visitors
- Children may attend visits if approved by treatment team
- All visitations must be scheduled through the social service specialist/social worker and times are scheduled by rotation of units with morning and afternoon sessions lasting up to two hours each.
 - Morning session - 9-11 a.m.
 - Afternoon session - 1-3 p.m.
- Madison State Hospital will provide alcohol-based hand rub for visitors
- Social distancing measures must be maintained in visitation area and are clearly marked.
- No food will be permitted during visits or brought for later consumption due to the removal of masks when eating and for infection control practices.
- If your loved one needs additional items, it is strongly recommended that you mail packages at least one week in advance of your visit to allow for screening, cleaning, and logging of the items. Please enclose a note indicating whether you want the items to be given during the visit or if they are to be distributed to your loved one once through processing. If not sent ahead of the scheduled visit, items will not be given at the time of the visit due to infection control processes.

Division of Mental Health and Addictions
Madison State Hospital
Visitation Schedule during Coronavirus Pandemic

- Visitation sessions are assigned in a rotation of units for infection control and contact tracing efforts.
- In the event of a known COVID-19 case at MSH, all visitations will immediately be suspended.
